

our children

Name:

Saul Eduardo Valois

Age:

Seven

Saul is five years old. He entered Casa along with his sister Yosli on January 1, 2007. Saul shares the same fate as his older sister – not knowing who his father is and not having a name listed on his birth certificate. The mother is very poor working a low paying job at a local factory. She faithfully visits her children, but she lives a subsistence existence and unless her circumstance substantially improves, may never be able to care for her children. Saul is a sensitive, loving boy whose favorite color is red. Saul is in kindergarten and loves spending time among the animals around Casa. He and his sister are very close and share a love that warms the heart as we have had the pleasure of watching them together.
