

our children

Name:

Yosli Valois

Age:

Eight

Yosli is among our more recent resident children and entered Casa on January 1, 2007 along with her younger brother Saul. The father is unknown and no name is listed on her birth certificate. Yosli attends the first grade and is as sweet as her smile, often found in the crowd looking after her little brother. She has adapted very well to life at Casa, doing her daily chores without complaint and getting along with all the children. The mother works in a low paying job at a local factory. She faithfully visits her children, but she lives a subsistence existence and unless her circumstance substantially improves, may never be able to care for her children. Her favorite color is yellow.
